

DEVELOP – VIEWING AN ORGANIZATION PROFILE

Once you have been given access to your Organization Profile, when you login to your Individual Profile, you will be able to view both accounts.

1. Login to Develop with your email address and password.
2. From the **Individual Profile** drop down menu, you should see your **Organization** listed. If you have access to more than four organizations, you will see **My Organizations**. A separate screen will open with your organizations listed.

3. Click on the Organization name to be directed to the profile.
