Systems announcements

We will update this section with information about MN–ITS availability, technical information and other systems announcements when necessary.

Pharmacy billing and support changes coming on Nov. 4 for outpatient fee-for-service MHCP

Effective Nov. 4, 2024, outpatient pharmacy services claims processing and related pharmacy benefit functions will transition from the Minnesota Department of Human Services (DHS) to Magellan Health (Prime Therapeutics). Please note that the original date for the transition was Oct. 1, 2024, but the launch date was changed to Nov. 4, 2024, to allow for additional time to complete integration testing. This impacts only the fee-for-service outpatient pharmacy benefit. Managed care organizations will continue to provide outpatient pharmacy benefits for members enrolled in their plans.

DHS has contracted with Magellan Health to provide the following services:

- outpatient pharmacy claims processing (point-of-sale claims)
- outpatient pharmacy member and provider call center (24 hours a day, 7 days a week)
- drug rebate system and administrative support
- prior authorization determinations for outpatient pharmacy and provider-administered drugs
- retrospective drug utilization review
- state maximum allowable cost and 340B ceiling price file
- preferred drug list

DHS has convened a number of provider and stakeholder meetings about this transition and will continue to communicate to providers with more specifics in September and October, in advance of the Nov. 4 effective date. (pub. 8/27/24)

MHCP wants your feedback

MHCP wants feedback from enrolled providers and invites you to take the [MHCP Provider Survey](#). We want to hear from you about what works well, what needs improvement, and what else we should be considering when we work with you to accomplish our shared goals. (pub. 8/8/24)

The HT modifier is allowed if one responder is available virtually and another responder is in person. The HT modifier has the same reimbursement rate as other mobile crisis services billing codes. Providers can immediately start adding the HT modifier to the rendering provider's claim.

Review [Billing](#) in the [Adult and Children's Crisis Response Services](#) section in the Minnesota Health Care Programs (MHCP) Provider Manual for more information on HT modifiers.

Update: Personal care provider organization (PCPO) revalidation started Sept. 16

Minnesota Health Care Programs (MHCP) sent revalidation notices to PCPOs (provider type 38) on Sept. 16, 2024. Providers due for revalidation will find the revalidation notice in the **PRVLTR** folder of their MN-ITS mailbox. We will mail the revalidation notice via the U.S. Postal Service to the credentialing address on the enrollment record if you have not set up a MN-ITS mailbox.

With the transition of PCPO to CFSS on Oct. 1, 2024, you have two options for revalidating your PCPO record(s).

Substance Use Disorder (SUD) services State Plan Amendment (SPA) approved

Minnesota Department of Human Services (DHS) received approval for a SPA related to SUD treatment services. The SPA introduces several key changes that will impact residential SUD services:

- **Residential American Society of Addiction Medicine (ASAM) levels of care:** The amendment defines residential ASAM levels of care.
- **Unified residential treatment rates:** The SPA includes one rate for residential treatment providers for individuals covered by the Behavioral Health Fund or Medical Assistance. We are currently updating the claims system to allow for payment of the higher rate for behavioral health fund. We will communicate additional information via email and MN-ITS mailbox.
- **Daily skilled treatment requirement:** A daily skilled treatment service is required for high-intensity residential treatment (ASAM 3.3 and ASAM 3.5). There is no longer a requirement to provide 30 hours of treatment per week for ASAM 3.3 and ASAM 3.5 levels of care.
- **Low-intensity residential levels:** The SPA outlines two levels of low-intensity residential treatment, one requiring at least five hours and the other at least 15 hours of skilled treatment services along with their respective rates.
- **Billing for missed services in residential levels of care:** Programs can continue to bill a per diem rate based on a client's intensity level when a treatment service is missed. The reason for missing a service must be client centered. The program must document both the reason for the client's absence and the interventions taken.
- **Holiday scheduling flexibility:** Effective Aug. 1, 2024, service hours during a treatment week may be reduced to accommodate federally recognized holidays. This is applicable for outpatient services and ASAM 3.1 low-intensity residential treatment. High-intensity residential treatment (ASAM 3.3 and ASAM 3.5) is still required to provide daily skilled treatment services.

We are updating forms and the [Substance Use Disorder Services](#) section of the MHCP Provider Manual to reflect these changes. We will share updates as they become available. Email sud.direct.access.dhs@state.mn.us if you have any questions regarding these policy updates. (pub. 9/16/24)

DHS begins EVV compliance enforcement

As of Sept. 1, 2024, DHS began to enforce EVV compliance and review EVV usage for all providers, regardless of payer, including financial management service (FMS) providers and managed care organizations (MCOs). This change ends the EVV soft launch phase.

For services that require EVV, provider agencies must:

- Immediately enroll with the HHAExchange (HHAX) system. To review the steps to begin the enrollment process, refer to the [EVV provider onboarding guide](#) webpage.
- Use their EVV systems.
- Send EVV visit data to the state aggregator.

Provider agencies may be at risk for nonpayment of services if they:

- Do not make a good faith effort toward EVV compliance.
- Do not meet MN EVV requirements.

For more information, refer to the [EVV compliance FAQ](#) webpage.

Children's Mental Health Residential Treatment provider room and board reimbursement update

Minnesota Health Care Programs (MHCP) covers children's mental health residential treatment room and board (R&B) services effective July 1, 2024, for Medical Assistance (MA) and MinnesotaCare (MNCare) members under age 21. R&B service claims for MA and MNCare members enrolled in a managed care organization prepaid health plan must be billed to MHCP fee-for-service.

We are working on updating our system to accommodate R&B billing. We established the following payment process as a workaround for providers until our system is updated.

- Submit your R&B claims using the 837I (Institutional) claim format. Refer to the [Room and Board Services for Adult Residential Crisis Stabilization \(RCS\), Children's Mental Health Residential Treatment \(CMHRT\), and Intensive Residential Treatment Services \(IRTS\) MN-ITS User Guide](#) for step-by-step instructions.
- We sent a claim attachment memo to your MN-ITS mailbox Aug. 6. Attach the memo as a claim attachment on the claim. Your claims will be in suspended status until our system is ready to process them.
- You will receive an advance payment for the suspended claims. After we update our system, your suspended claims will process, and the previous advance payments will be adjusted.
- You must apply for a supplier ID if you do not have a supplier ID. Go to the [Minnesota Supplier Portal](#) website and select "Register for an Account" and register as a "New Supplier."
- You may also sign up for [Electronic Funds Transfer](#).

You may also attend a room and board MN-ITS training webinar. Go to the [Children's Mental Health Residential Treatment Room and Board MN-ITS Training](#) webpage to register.
