

Appendix F2: Quality Measures

This is a slate of total cost of care (TCOC) quality measures proposed for use in evaluating quality performance standards in the Integrated Health Partnership (IHP) Shared Risk Payment Model. Please see Section 7.3 of the RFP for more details on quality and the shared risk model.

Quality Core Set Domain

Track 2 IHPs will focus on all measures in this category. This domain is worth 20% of the total quality score.

Contract ID	Measure Category	Measure Name	Measure Specification Organization	Method of Data Collection	Rate Used in Calculations	Population Data Required
C01	Prevention & Screening for Adults	Colorectal Cancer Screening (CRC)	MNCM	MN DHS shall obtain the measure results	Medicaid-specific	Total Population
C02	Prevention & Screening for Adults	Breast Cancer Screening (BCS)	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total Attributed Population
C03	Care for at risk populations	Follow-Up After Acute and Urgent Care Visits for Asthma (AAF-E)	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total Attributed Population
C04	Care for at risk populations	Statin Therapy for Patients With Cardiovascular Disease (SPC)	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total Attributed Population
C05	Behavioral Health	Follow-up After Hospitalization for Mental Illness (FUH)	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total Attributed Population
C06	Behavioral Health	Initiation and Engagement of Alcohol and Other Drug Dependence Treatment (IET)	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total Attributed Population
C07	Patient-centered Care	CG-CAHPS Timely Appointments, Care, and Information	AHRQ	DHS Survey	IHP-specific	Sample
C08	Patient-centered Care	CG-CAHPS How Well Providers Communicate with Patients	AHRQ	DHS Survey	IHP-specific	Sample

Appendix F2 – Quality Measures

Contract ID	Measure Category	Measure Name	Measure Specification Organization	Method of Data Collection	Rate Used in Calculations	Population Data Required
C09	Patient-centered Care	CG-CAHPS Helpful, Respectful, and Courteous Office Staff	AHRQ	DHS Survey	IHP-specific	Sample
C10	Patient-centered Care	CG-CAHPS Providers' Use of Information to Coordinate Patient Care	AHRQ	DHS Survey	IHP-specific	Sample
C11	Patient-centered Care	CG-CAHPS Patient Rating of Provider as 9 or 10	AHRQ	DHS Survey	IHP-specific	Sample
C12	Patient-centered Care	HCAHPS Overall Hospital Rating	CMS	DHS shall obtain the measure results	Total Population "Top Box" Rate	Sample Total Population
C13	Quality of Outpatient Care	Prevention Quality Indicators: Overall Composite (PQI 90)	AHRQ	MN DHS claims and encounter data	IHP – specific	Total Attributed Population

Care for Children and Adolescents Domain

Track 2 IHPs will focus on all measures in this category. This domain is worth 20% of the total quality score.

Contract ID	Measure Category	Measure Name	Measure Specification Organization	Method of Data Collection	Rate Used in Calculations	Population Data Required
C14	Care for Children and Adolescents	Well-Child Visits in the First 30 Months of Life: First 15 Months (W30)	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total Attributed Population
C15	Care for Children and Adolescents	Well-Child Visits in the First 30 Months of Life: 15 Months – 30 Months (W30)	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total Attributed Population
C16	Care for Children and Adolescents	Child and Adolescent Well-Care Visits: Children (WCV) (Ages 3 – 11)	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total Attributed Population

Appendix F2 – Quality Measures

Contract ID	Measure Category	Measure Name	Measure Specification Organization	Method of Data Collection	Rate Used in Calculations	Population Data Required
C17	Care for Children and Adolescents	Child and Adolescent Well-Care Visits: Adolescents (WCV) (<i>Ages 12 – 21</i>)	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total Attributed Population
C18	Care for Children and Adolescents	Childhood Immunization Status Combo 10 (CIS)	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total Attributed Population
C19	Care for Children and Adolescents	Immunization for Adolescents Combo 2 (IMA)	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total Attributed Population
C20	Care for Children and Adolescents	Oral Evaluation, Dental Services (OED): Children	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total Attributed Population

Quality Improvement Domain

Track 2 IHPs will select three measures, in collaboration with the Department of Human Services (DHS), to focus efforts specifically on quality improvement. IHPs may propose other measures not on this list for consideration. This domain is worth 30% of the total quality score.

Contract ID	Measure Category	Measure Name	Measure Specification Organization	Method of Data Collection	Rate Used in Calculations	Population Data Required
Q1	Quality Improvement	Breast Cancer Screening (BCS)	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total Attributed Population
Q2	Quality Improvement	Colorectal Cancer Screening (CRC)	MNCM	MN DHS shall obtain the measure results	Medicaid-specific	Total Population
Q3	Quality Improvement	Childhood Immunization Status (Combo 10) (CIS)	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total Attributed Population
Q4	Quality Improvement	Well-Child Visits in the First 30 Months of Life (W30) (<i>Applicant must specify the submeasure 0 – 15 month or 15 – 30 month.</i>)	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total Attributed Population

Appendix F2 – Quality Measures

Contract ID	Measure Category	Measure Name	Measure Specification Organization	Method of Data Collection	Rate Used in Calculations	Population Data Required
Q5	Quality Improvement	Child and Adolescent Well-Care Visits (WCV) – All ages (3 – 21)	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total Attributed Population
Q6	Quality Improvement	Follow-up After Hospitalization for Mental Illness (30-day) (FUH)	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total Attributed Population
Q7	Quality Improvement	Initiation and Engagement of Alcohol, Opioids, and Other Drug Dependence Treatment (IET)	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total Attributed Population
Q8	Quality Improvement	Oral Evaluation, Dental Services (OED): Children	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total Attributed Population
Q9	Quality Improvement	Oral Evaluation, Dental Services (OED): Adult	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total Attributed Population

Closing Gaps Domain

Track 2 IHPs will select two measures from the list below, in collaboration with the Department of Human Services (DHS), to focus on reducing and eliminating disparities in care when looking at care for the MHCP population compared to the commercial population. This domain is worth 20% of the total quality score.

Contract ID	Measure Category	Measure Name	Measure Specification Organization	Method of Data Collection	Rate Used in Calculations	Population Data Required
G1	Closing gaps	Colorectal Cancer Screening (CRC)	MNCM	MN DHS shall obtain the measure results	Medicaid-specific	Total Population
G2	Closing gaps	Optimal Diabetes Care (ODC)	MNCM	DHS shall obtain the measure results	Medicaid- specific	Total Population

Appendix F2 – Quality Measures

Contract ID	Measure Category	Measure Name	Measure Specification Organization	Method of Data Collection	Rate Used in Calculations	Population Data Required
G3	Closing gaps	Optimal Asthma Control Adult (OAC-Adult)	MNCM	DHS shall obtain the measure results	Medicaid- specific	Total Population
G4	Closing gaps	Optimal Asthma Control Child (OAC-Child)	MNCM	DHS shall obtain the measure results	Medicaid- specific	Total Population

Equitable Care Domain

Track 2 IHPs will select one measure from the list below, in collaboration with the Department of Human Services (DHS), to address disparities in care for racial and ethnic groups. IHPs may propose other measures not on this list, but DHS must be able to obtain the appropriate data stratified by race and ethnicity to assess performance. This domain is worth 10% of the total quality score.

Contract ID	Measure Category	Measure Name	Measure Specification Organization	Method of Data Collection	Rate Used in Calculations	Population Data Required
E1	Equitable Care	Breast Cancer Screening (BCS)	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total attributed population stratified by race and ethnicity
E2	Equitable Care	Colorectal Cancer Screening (CRC)	MNCM	DHS shall obtain the measure results	Medicaid- specific	Total population stratified by race and ethnicity
E3	Equitable Care	Childhood Immunization Status (Combo 10) (CIS)	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total attributed population stratified by race and ethnicity
E4	Equitable Care	Well-Child Visits in the First 30 Months of Life (W30) <i>(Applicant must specify the submeasure 0 – 15 month or 15 – 30 month.)</i>	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total attributed population stratified by race and ethnicity

Appendix F2 – Quality Measures

Contract ID	Measure Category	Measure Name	Measure Specification Organization	Method of Data Collection	Rate Used in Calculations	Population Data Required
E5	Equitable Care	Child and Adolescent Well-Care Visits (WCV)	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total attributed population stratified by race and ethnicity
E6	Equitable Care	Prenatal and Postpartum Care (PPC)	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total attributed population stratified by race and ethnicity
E7	Equitable Care	Follow-up After Hospitalization for Mental Illness (30-day) (FUH)	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total attributed population stratified by race and ethnicity
E8	Equitable Care	Initiation and Engagement of Alcohol, Opioids, and Other Drug Dependence Treatment (IET)	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total attributed population stratified by race and ethnicity
E9	Equitable Care	Plan All-Cause Readmissions (PCR)	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total attributed population stratified by race and ethnicity
E10	Equitable Care	Follow-Up After Acute and Urgent Care Visits for Asthma (AAF-E)	HEDIS, NCQA	MN DHS claims and encounter data	IHP-specific	Total attributed population stratified by race and ethnicity

NOTE: HealthCare Effectiveness Data and Information (HEDIS) abbreviations or other common acronyms to refer to the measure are included in parentheses for reference purposes in the tables above. Some measure calculations used for the Integrated Health Partnership (IHP) program include slightly different age range than what is outlined in the technical specifications.

Appendix F2 – Quality Measures

Glossary of Acronyms

AHRQ - Agency for Healthcare Research and Quality

CG-CAHPS – Clinician and Group Consumer Assessment of Healthcare Providers and Systems

CMS – Centers for Medicare and Medicaid Services

HCAHPS – Hospital Consumer Assessment of Healthcare Providers and Systems

HEDIS - Healthcare Effectiveness Data and Information Set

MNCM – Minnesota Community Measurement

NCQA - National Committee for Quality Assurance
