Utilization Management

Molly Lang | Utilization Lead, SUD Reform & Redesign Team

History

2017- Centers for Medicare and Medicaid Services (CMS) announced section 1115(a) demonstrations to combat opioid crisis

2019 - Legislation codified required provider standards and provided necessary funding for implementation, demonstration evaluation, utilization management process (MN Statute [256B.0759](#))

2020 - CMS approved Minnesota's 1115 Substance Use Disorder Reform Implementation Plan

2021 - Majority of the milestones met and Utilization Management (UM) began

2025 – State Law and State Plan effective; rates aligned with American Society of Addiction Medicine (ASAM) continuum of care, no longer an “1115 rate”

What UM Used to Look Like

Pursuant to MN Statute 254A.03 Subd. 3, (b): The commissioner shall develop and implement a utilization review process for publicly funded treatment placements to monitor and review the clinical appropriateness and timeliness of all publicly funded placements in treatment.

Drug and Alcohol Normative Evaluation System (DAANES): As required by 254B.05 Subd. 1b., (3), All SUD clients regardless of funding need to be entered into DAANES for each admission episode.

Federal Goals and Objectives

1. Increased rates of identification, initiation and engagement in treatment
2. Increased adherence to, and retention in, treatment
3. Reductions in overdose deaths, particularly those due to opioids
4. Reduced utilization of emergency departments and inpatient hospital settings for Opioid Use Disorder (OUD) and other Substance Use Disorders (SUD) through improved access to more appropriate services available through the continuum of care
5. Fewer readmissions to the same or higher level of care for readmissions that are preventable or medically inappropriate
6. Improved access to care for physical health conditions

1115 Demonstration Goals and Objectives

Create a clinical and outcome-driven continuum of care aligned with American Society of Addiction Medicine (ASAM) criteria

Expand MN Medical Assistance (MA) coverage to Institutions for Mental Disease (IMD) - (inpatient / residential facilities with 17 or more beds) that are typically not covered by MA due to the IMD exclusion

Ensure that people receive services in the right level of care at the right time

1115 Demonstration Milestones

1. Access to critical levels of care for SUDs
2. Widespread use of evidence-based, SUD-specific patient placement criteria
3. Use of nationally recognized, evidence-based SUD program standards to set residential treatment provider qualifications
4. Sufficient provider capacity at each level of care, including medication assisted treatment (MAT)
5. Implementation of comprehensive treatment and prevention strategies to address opioid abuse and OUD
6. Improved care coordination and transitions between levels of care

Utilization Management

Purpose: To assure a client receives SUD services at the appropriate ASAM level of care and that the interventions are appropriate to meet the client's current needs.

Acentra Health (formerly Kepro) monitors and reviews recipient medical records to determine if the documentation supports the level of care and medical necessity, in alignment with ASAM Standards as established by MN Statute 254B.19

Additionally, Acentra will review for medical necessity for Peer Recovery Support Services (PRSS) in alignment with MN Statute 254B.052

SUD providers submit clinical documentation to Acentra for fee-for-service (FFS) and Behavioral Health Fund clients

Managed Care Organizations (MCOs) are required to align with the FFS UM process and ASAM Criteria

Acentra staff review documentation for clinical and medical necessity and ASAM criteria

Acentra staff have a legal obligation to report suspected fraud, waste and abuse to the DHS Program Integrity Oversight Division (PIO)

The Provider Process

Provider becomes eligible to provide ASAM level(s) of care

Contact MinnesotaASAM@acentra.com to register an Atrezzo Portal Account

Provider receives email from Acentra identifying recipients for review (soon to be automatic case creation)

Provider creates a case in the Atrezzo Portal

Provider completes questionnaire and uploads documentation demonstrating compliance

Follow-up requests for additional information about documents submitted are through Atrezzo Portal

Provider to follow instructions for concurrent review of a client through to discharge

Upon Case Review

> Acentra clinical staff make initial determination

> Acentra Medical Director review/approval/rejection

> Case rejections:

- Email sent to provider relating to administrative denial due to not meeting ASAM requirements based on missing ASAM documentation/information (provider given 15 days to respond)
- Consult provided via phone or MS Teams (involving provider clinical teams and billing specialists as needed) if not resolved via email
- If no further response, the case is rejected, and information is provided through the Atrezzo Portal for reconsideration requests

Referrals to Program Integrity Oversight Division

Referrals are made to PIO for reasons including, but not limited to, the following:

- Provider does not engage in UM
- Not meeting medical necessity
- Continued stay criteria not met
- Documentation does not support the level of care

What to expect once a referral is made to PIO:

- PIO contacts the provider
- Opportunity to submit outstanding documentation
- If no response or insufficient response, an Initial Findings Report (IFR) is sent to provider
- Notice of Agency Action (NOAA) is sent and
- PIO coordinates with Acentra and BHA SUD Unit throughout the entire process

Tiered System of Review

Opportunity for a reduced percentage of reviews based on “High Compliance”

Review categories to be determined based on performance over the previous three months

Standard reviews to include:

- 5% of client files for ASAM level of care services 1.0
- 10% of client files for ASAM levels of care services 2.1, 2.5, 3.1, 3.2, 3.3, 3.5 and 3.7
- 2% of client files for Opioid Treatment Program services
- 5% of client files for PRSS services

High Compliance reviews to include:

- 2% of client files for ASAM level of care services 1.0
- 5% of client files for ASAM levels of care services 2.1, 2.5, 3.1, 3.2, 3.3, 3.5 and 3.7
- 1% of client files for Opioid Treatment Program services
- Not applicable for PRSS services

Providers default to the “Standard” review category

Newly certified providers will start in the “Standard” review category

ASAM Level of Care Requirements

- Certified providers must provide treatment services as defined in MN Statute 254B.19
- Highlights:
 - ASAM does not recognize a level of care in which 30 hours of outpatient services a week are provided on a consistent basis
 - Level 1.0 Outpatient = Up to 8 hours per week of skilled treatment services
 - Level 2.1 Intensive Outpatient = 9-19 hours per week of skilled treatment services
 - Level 2.5 Partial Hospitalization = 20 or more hours of intensive, multidisciplinary care
 - Visit Enroll to Provide ASAM Level of Care 2.5 and complete the steps to comply with requirements

Support and Collaboration

DHS will continue to collaborate and support programs in meeting requirements by way of:

- Peer Review processes
- Clinical Virtual Office Hours – ASAM Certification
- ASAM trainings
- Data distributions from UM
- On-the Spot trainings with Acentra
- Technical assistance provided by Acentra

Celebrating Achievements!

UM successfully implemented to meet CMS requirements

Percent of a provider's cases reviewed has decreased from 100% to 10%-15%

Approval for sole source

UM process refined for provider ease-of-use

Increased ASAM education presentations from Acentra

ASAM Levels of Care adopted by MN

If there are any questions about registering an account, please reach out to MinnesotaASAM@acentra.com

If there is a need for clinical assistance, please reach out to ASAM.DHS@state.mn.us
