

Additional Minnesota Health Care Programs (MHCP) Provider Resources

[Policies and procedures webpage](#)

- Get help with common policies and procedures for Minnesota Department of Human Services (DHS) partners and providers. Pages include links to manuals, bulletins, contact us, administrative updates, grants and requests for proposals.

[School-Based Community Services \(SBCS\) in the MHCP Provider Manual](#)

- Learn about SBCS which are certain medically necessary services MHCP will reimburse when provided to children in the school by a qualified health care provider employed or contracted by the school. Effective July 1, 2021, Minnesota public schools will be able to bill for these services.

[Enrollment with Minnesota Health Care Programs \(MHCP\) section under Provider Basics in the MHCP Provider Manual](#)

- Find information about who is eligible and how to enroll with MHCP.

[School-Based Community Services \(Intent to Bill\) \(DHS-8084\) \(PDF\)](#)

- Use this form to notify MHCP of your intent to bill for school-based community services and which services you plan to provide. Your school will not be able to bill for school-based community services unless you submit this form to MHCP.

[MHCP MN-ITS User Manual – Home \(Online User Manual\)](#)

- Find user guides to assist with using various features and functions within MN-ITS.

[MHCP provider training webpage](#)

- Find upcoming courses, conferences, webinars and online training including [on-demand videos](#).
 - On-demand videos are arranged by category and provide quick instruction on a concept or technique. Click on each category to see the available videos. The running time is listed next to the video title and each video contains closed captions. Internet Explorer is not a supported browser for viewing the videos. We recommend using an alternative browser when playing the videos if the videos will not open in your default browser. Complete the short [On-Demand Video Survey](#) after you have watched a video so we can continue to improve and deliver effective provider training.
