

MinnesotaCare talking points

More Minnesotans now have access to affordable, comprehensive health insurance through the MinnesotaCare program. A new law allows low-income residents to qualify regardless of immigration status.

MinnesotaCare covers a broad range of health care services, like preventive, routine, specialty and emergency care. Most services will cost you nothing out of pocket.

You are eligible for MinnesotaCare if you:

- Live in Minnesota.
- Meet the income limits.
- Lack other health insurance options. If your job offers you health insurance, you may still qualify if the insurance from your job is too expensive for you.

An example of the income limits is \$30,120 a year for single person or \$62,400 for a family of four.

You can apply for MinnesotaCare anytime. There's no deadline. But the sooner you apply, the sooner your insurance can begin. The earliest your insurance can begin if you are an undocumented person is Jan. 1, 2025.

Insurance is complicated so we encourage people to get one-on-one help applying from a trusted community partner. MNSure-certified navigators can walk you through the entire process. They can also answer your questions. You can find a navigator who speaks your language at mnsure.org/free-help.

You can also apply on your own online at mnsure.org. Or fill out a paper application. You can find the paper applications and more information at mn.gov/dhs/minnesotacare.
