

DCT Referral Waitlist

This graph illustrates the waitlists for DHS-operated treatment programs on July 15, 2023, and July 15, 2024. The numbers are a snapshot on this date and time. They rise and fall from day to day as patients are discharged and new patients are admitted.

High Priority Referrals and General Referrals are depicted separately on the graph. Those two numbers combined represent the total waitlist at each facility. For example, as of July 15, 2023, AMRTC had 70 general referrals and 30 high priority referrals for a total waitlist of 100 at that facility. As of July 15, 2024, AMRTC had 49 general referrals and 15 high priority referrals.

The graph does not include Community-Based Services or the Minnesota Sex Offender Program because these DHS-operated programs are not typically sites for Priority Admission referrals.

Acronym Key:

- AMRTC** – Anoka-Metro Regional Treatment Center
- CABHH** – Child and Adolescent Behavioral Health Hospital
- CARE** – Community Addiction Recovery Enterprise
- CBHH** – Community Behavioral Health Hospitals
- FMHP** – Forensic Mental Health Program (known in statute as the Minnesota Security Hospital)
- MSHS** – Minnesota Specialty Health System
